

PREPARED-1

Perennial Allergic Rhinitis
Is a Daily Challenge.

Time to Go All-In Against It.

**Do you wake up in the middle
of the night because of an
itchy, runny nose?**

**Ever have to miss work or school
because you can't stop sneezing?**

**Do you feel like you have
a forever cold?**

If you're saying yes, then you might understand what it's like to live with Perennial Allergic Rhinitis (PAR), which means you experience allergy-related symptoms most days for more than 12 weeks a year.

If you are ready to go all-in against PAR, consider joining the PREPARED-1 clinical research study, which is designed to assess an investigational medication that may be able to help.

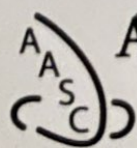

Those who qualify may receive:

- Up to \$XXXX
- Study-related care from local doctors and specialists
- No-cost study medication

You may qualify for the PREPARED-1 research study if:

- You have Perennial Allergic Rhinitis (PAR)
- You are 18 years of age or older
- Your symptoms aren't being controlled with your current medication

To learn more or see if you qualify
for PREPARED-1, call or contact us today:

**Allergy, Asthma &
Sinus Center, S.C.**
